25X1

Deputy Director for Science & Technology
Room 6E60 - Headquarters

Dear Carl:

For what my opinion is worth, I thought the December 1969 issue of the Scientific Intelligence Digest made excellent reading.

In particular, the articles on "The Effect of the Sevastopol Hen House Radar, etc." and "Greater Targeting Flexibility for the Soviet SS-7, etc." were useful, lucid, and well-stated analyses.

Sincerely,

25X1

Executive Director
National Photographic Interpretation Center
